English Language and Phonics News:

WELCOME BACK to our old students and a BIG HELLO to all our new students who are joining us for the 2025-2026 school year.

What a fabulous start we have had to the new school year with all children quickly settling in to the rhythm and routine of their new English classes. Our classes are organised as follows:

- ★ PN - 'Language Through Play' with Mr Jojo.
- ★ N & LK - Phonics with Mr Jojo.
- ★ UK - Phonics with Ms Anna.

On Fridays we will join together for our Special Fri-YAY activities!

Pre-Nursery 101

'Learning language through play' is an extension of the 'learning through play' approach that underpins our PN curriculum and teaching approach. Children in PN will engage in a wide range of rich interactive activities that will allow them to naturally acquire new language skills and develop and broaden their existing vocabulary and speech.

Phonics 101

Q. What is phonics?

A. Phonics is a systematic approach for teaching children how to read, write and spell. Phonics introduces the concept that letters and sounds share a connection – a fundamental skill that children need to develop in order to become independent, proficient and confident readers.

Q. Why is phonics important?

A. Learning phonics at a young age builds a good foundation for literacy. A child who has strong phonics skills will ultimately gain a higher level of fluency, comprehension and vocabulary knowledge allowing them to be successful across all subject areas.

Q. How is phonics taught at PIPS?

A. All of our lessons are multi-sensory and offer an engaging approach which aims to entice all of our 'little learners' to join in and build their knowledge and self-confidence in their language and literacy journey. Each level has been specially curated to enhance and support classroom learning and develop children's phonemic awareness.

而在學術方面，幼兒要開始學寫字，雖然執筆姿勢及書寫力度掌握要多加練習，但老師非常欣賞小朋友嘗試自行完成堂課，值得讚賞！
