Class News 我們的近況:

So many things have happened in these two months; we had our first field trip and visited Tsuen Wan Park on 22nd March. On 28th March, we celebrated Easter with lots of games and activities, we also had colourful eggs for our snack which was so memorable!

Through the themes 'Wonders of Nature' and 'Animal World' we learnt about nature and animals, and pretended to be different kinds of insects, animals and plants to learn about their features and habitats.

On 19th April, we are celebrating our 4th birthday party with the birthday stars of March and April, they are: CHAN Sum-kiu, YEUNG Kwan-long, CHAN Ho-tim, FU Chun-hin and CHAN Chi-yuet.

Happy Birthday to all of you!

Teacher's Corner 老師的話:

In April we had our story-based theme 'Animal World', we learnt about sea animals through storybooks and we made drama props for our drama show. I am so impressed to see that you were able to describe some of the features of the sea animals that we discussed in class, and you all participated actively in class and to prepare for our drama show.

A few more months then soon you will be moving on to the next level of your kindergarten life, I wish to create more memorable moments with you all! Keep going!

English Language and Phonics News:

Spring is here! The weather is warming up and the days are getting longer but there is still more for the children to learn and fun to be had before they move on to their next level of study.

PN classes have been exposed to healthy and unhealthy food habits and it was good to see and hear that the children like to eat their fruit and veggies! They've also had fun dressing up in the 'Wonders of Nature' theme and pretending to fly like a bee or butterfly to buzz around the flowers.

N classes have been continuing to practise and perfect their crayon grip in preparation for more precise letter formation using a pencil when they are promoted to LK. In order to support young children's literacy and pre-writing skills it is beneficial to practise additional fine motor skills such as manipulating playdoh, cutting with scissors and threading to allow them to build up their small hand muscles and strength.

LK classes have finished learning how to write all the letters of the alphabet and are now ready to move on to the next stage of their phonics journey: learning to 'blend' the sounds together. Over the next 2 months, children will learn how to read, write and spell simple 3-letter words such as cat, dog, man, bed and many more.

UK classes are coming towards the end of learning all 44 sounds of the English language and their alternative spellings (of which there are many!). Children were especially excited to extend their knowledge of the vowels and learn about 'Magic e' and its ability to change the short vowel sounds into long vowel sounds; they engaged well and have learnt a rhyme to help them remember!
